

# Bluetooth Car Mirror Kit

*Keep your Eyes on the  
Road and your Hands on  
the Wheel...*

# Bluetooth Car Mirror Kit

- The National Highway Traffic Safety Administration (NHTSA) estimates that 10% of drivers on the road are using some type of hand-held communications device.
- Studies have proven that driver inattention is the leading factor in most crashes and near-crashes.
- 15 states and Washington D.C. have passed some kind of legislation restricting the use of hand-held cell phones while driving. New York, New Jersey, Connecticut, and Washington, D.C. have passed jurisdiction-wide bans on hand-held cell phones and require drivers to use a hands-free system while driving.

# Bluetooth Car Mirror Kit

- Following in the footsteps of New York, New Jersey, Connecticut and Washington, D.C., California recently passed new legislation. Effective 2008, hands-free units will be required when drivers are using cell phones while operating a vehicle.
  - *Effective July 1, 2008, the California legislation prohibits drivers from using a wireless telephone while operating a motor vehicle unless the driver uses a hands-free device. Drivers who violate the law will face a base fine of \$20 for a first offense and \$50 for each subsequent offense.*

# Bluetooth Car Mirror Kit

- The safety issue of drivers being distracted while talking on cell phones has garnered more and more attention in the past few years and we can expect even more states and local municipalities to follow suit and pass similar laws.
- There is now talks of possible federal regulations on the use of hand held cell phones while driving.

# Bluetooth Car Mirror Kit

- Most cars on the road today do not come with factory-installed Bluetooth systems – this is found mainly in luxury cars and comes with a luxury price tag.
- Most after-market Bluetooth headsets sold today tend to be bulky and uncomfortable. It is difficult to get an earpiece that fits correctly and comfortably. The reception is not always great and the battery life is short.
- Most after-market Bluetooth car kits sold today require installation and have limited functionality.

# Bluetooth Car Mirror Kit

- The aforementioned limitations are eliminated with an exciting new product from Hexagon Technologies – the Bluetooth Car Mirror Kit.

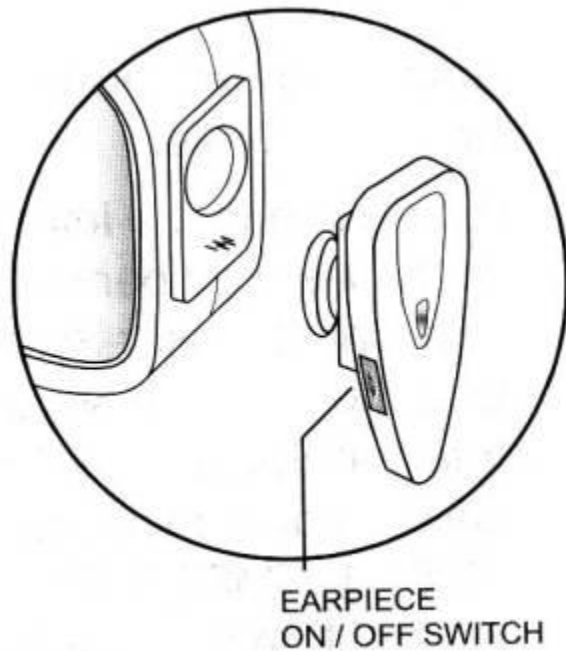

# Bluetooth Car Mirror Kit

- The Bluetooth car mirror kit is easy to install and simple to configure.
- The Bluetooth car mirror kit features excellent volume control and reception and stays charged for up to 2 days.
- The unit charges quickly and a cigarette lighter charger is included.
- The biggest advantage is the safety of being able to talk on the phone without the usual distractions associated with hand held use or traditional Bluetooth earpieces.

# Bluetooth Car Mirror Kit

- The detachable earpiece is a revolutionary feature – while talking hands-free in the car, the earpiece can be detached from the rearview mirror and the conversation becomes private.

# Bluetooth Car Mirror Kit

- This innovative design is a rearview mirror Bluetooth device that clips easily onto your existing car rearview mirror. No installation required!

# Bluetooth Car Mirror Kit

- This Bluetooth device can function through your FM radio or on its own using the built-in speaker.

# Bluetooth Car Mirror Kit

- The Bluetooth car mirror kit comes with a charging device that plugs into your cigarette lighter – a rechargeable battery comes built-in. Charging for a couple of hours will keep the unit functioning for at least 2 days.

# Bluetooth car mirror kit features:

- Power ON/OFF to conserve battery power when the unit is not in use
